DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or render obvious the claimed combination including: a lance type spraying assembly for directing a liquid reducing agent comprising: a lance body having an inlet end and a downstream end, a spray nozzle at the downstream end, wherein the lance body include an air passage for connection to an air supply, a liquid reducing agent supply passage for connection to a liquid reducing agent supply and a liquid reducing agent return passage, the liquid reducing agent supply passage communicating with the spray nozzle, the liquid reducing agent return passage communicating with liquid reducing agent supply passage near the downstream end of the lance body for recirculating a portion of liquid reducing agent and extending near the liquid reducing agent supply passage along at least a portion of the length thereof in order to help cool the liquid reducing agent therein, the liquid reducing agent return passage being sealed against the spray nozzle, and the air passage extending near at least a portion of the liquid reducing agent supply passage in order to help cool the liquid reducing agent therein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following patents are cited to show the art with respect to a

lance spraying assembly: a lance-type spraying assembly: Woodruff, Lehnert, Franke et al., and Yamasaki et al.
